

## CFA PILES

# QUAD 300-1200 CROPPER

Our Quad Croppers are designed to be used for the reduction of augured (round) piles up to 1200mm diameter. Utilising four powerful and fully synchronised rams with specially designed blades to give a superb pile cut. The cropper will also hold the cut pile section safely for removal to a designated safe area.

Best utilised on piles with 'debonded' reinforcement bars. Its design gives it a very small footprint to enable access into tight spaces. The Quad cropper can also be used to reduce contiguous and secant piled walls with spacing as close as 100mm.

### THE QUAD CROPPER

	Quad	Quad L	Quad XL	Quad XXL
Pile Size (mm)	300-600	600-750	750-900	900-1200
Weight (kg)	1375	2300	2500	3675
Length (mm)	1050	1792	1925	2363
Width (mm)	950	1792	1925	2363
Height (mm)	1107	1284	1284	2363
Excavator min size (tonne)	13	16	21	30
Max operating pressure (bar)	275			
Flow rate (L/Min)	90-180
